REPORT ON THE ACTIVITY BASED ON DIFFERENTIAL STUDENTS NEED

Mahajubilee training college had conducted several programmes based on the differential student needs. It means tailoring instruction to meet individual needs. Whether teachers differentiate content, process, products, or the learning environment, the use of ongoing assessment and flexible grouping makes this a successful approach to instruction. It is an institutionalized activity in accordance with learner needs. The aims of the programme is to create a learning environment which encourages students to engage their abilities to the greatest extent possible, including taking risk and building knowledge and skills in what they perceive as a safe, flexible environment. For achievement of this goals Teacher educators observe and interview of every student teacher and assess their level of readiness, attitude, interest. After this assessment the faculties prepare to plan for individualised instruction.
