

MAHAJUBILEE TRAINING COLLEGE

MULLOOKARA - THRISSUR (DT.) Pin: 680 583

Topic :

..... Reflect on your understanding
..... of inclusion

Year 2020 - 2022

Semester IV

Name

..... AKHILA ABHITHA GEORGE

Reg.No.

..... VTAUTE001

Optional Subject

..... ENGLISH

ANN GEORGE C
CULTY MEMBER

Date 01-04-2022

Asst. PROFESSOR IN PSYCHOLOGY
MAHAJUBILEE TRAINING COLLEGE
MULLOOKARA - 680 583

PRINCIPAL

Date 01-04-2022

Rev. Dr. Chacko Chiramel
PRINCIPAL
MAHAJUBILEE TRAINING COLLEGE
MULLOOKARA - THRISSUR

1. INTRODUCTION

As a part of our B-Ed curriculum we have to carry out a task in Edu 12. creating an inclusive school on the topic 'reflect on your understanding of inclusion. How is your understanding similar to a different from other teachers and administrators, in the school.'

Inclusion means the action or state of including or of being included within a group or structure. Here inclusion is making sure that each and every student feels welcome and that their unique needs and learning styles are attended to and valued.

So inclusive education is an approach to educating students with special educational needs. Hence it will reflect on their future and being a normal citizen in society. ✓

MAHAJUBILEE TRAINING COLLEGE

MULLOOKARA - THRISSUR (DT.) Pin: 680 583

Topic : EDU04 - understanding disciplines and subjects.

Task - Identify any 5 interdisciplinary subjects and list out their chief characteristics.

Year 2021-23

Semester FIRST SEMESTER

Name : ASHITHA-T

Reg.No. :

Optional Subject : PHYSICAL SCIENCE

FACULTY MEMBER

INTRODUCTION

The interdisciplinary subjects involves the combining of two or more academic disciplines into one activity. Interdisciplinary field draws on the discipline with the goal of integrating their insights to construct a more comprehensive understanding. It involves teachers, students, researchers etc. in the goals of connecting and integrating several academic schools of thought, professions or technologies. The term interdisciplinarity is applied within education & training pedagogy, to describe studies that use methods and insights of several established disciplines or traditional fields of study.

Interdisciplinarity also combines their specific perspectives in the pursuit of a common task. In an interdisciplinary subject, students explore and integrate the multiple perspectives from different disciplines, sub-disciplines and areas of expertise. It is about creating something by thinking across boundaries. It is related to an interdisciplinary which is related as organisational unit that crosses the traditional boundaries of academic disciplines. An interdisciplinary studies allow us to concentrate in multiple areas that will prepare us as better learners.

1. INTRODUCTION

As the part of our B.Ed Curriculum we have to carryout a task 'Narrate the educational Contributions of any one of the Indian or Western philosopher.' For this I selected the famous philosopher 'Swami Vivekananda'. He have Contributed in the past to the development of educational ideas, ideals and ideologies.

The super structure of present day education resets on the firm foundation laid by those great personalities. It's quite relevant to discuss educational ideas of some of the great educators so that the prospective teacher can develop deeper insight into many of the educational issues from a pedagogue's point
