## INTRODUCTION.

School is a miniature form of a society. The educational institutions are the backbone of the society. It depends upon the quality of society through the educational resources.

School is the second home where the teacher are second parent or god. Most of the time students spend their time in school rather than in the home. Classroom environment is one of the most important factors affecting student learning.

So, the school should provides relevant content, opportunities to build social skills. For proper learning resources help the students to construct in depth knowledge on a particular subject; this will lead to the effective learning process.

## SCHOOL OPTED FOR THE STUDY.

For this task, I had choose St. Thomas college H.S.S. Theissur. The school had started many years back and it has a glorious history. Many famous personalities had studied in this institution. It is located at the heart of the Theissur; Most popular known Educational institution. The School has upper primary, High school and higher secondary sections. It had both English and Malayalam medium. Many transportation facilities are available. The School had effective and several bodies of parent teacher associations, Student Organisation and Mother PTA. These Organisation

had helped the school in different ways in their needs and wants for the school authorities and for the students.

## RECORD OF AVAILABLE RESOURCES.

The school has a lot of resources with sufficient classrooms, lab, and all other basic resources, for the proper functioning of the school.

- Classroom.
- Laboratory
- Auditorium.
- Playground.
- Smart room.
- Computer lab.
- Library
- Classroom.
- ICT resources.
- Drinking water.
- Sports equipments
- Facilities of water resources.
- Hostel facilities.

Along with these material resources school should also need enough human resources, which is helpful for the students in every sections. There are enough number of teaching and non-teaching staff for the proper allocation.

School had enough financial resources and management funds for the better functioning of the school. These funds are available from the government and the management of the school; even by the well wishes of the schools.

The school has both the basic and physical facilities along with material resources, human resources, and financial resources.
