## 1. INTRODUCTION

As a part of B-Ed Curriculum, we have to conduct a course on Edu 401. EPC-3 Critical understanding of ICT. It consists of three workshops namely digital text Book / e-resources, ICT Integration with Pedagogy, e-content development which should be conducted in five days.

ICT or Information and Communication Technology in education is the mode of education that use Information and Communication technology to support, enhance and optimise the delivery of Information. World wide research has shown that ICT can lead to an improved student learning and better teaching methods. The workshop makes us experts to make spread sheet as a tool for administration and support, producing e-documents and digital textbook as tool for academic supports.

## 2. LEARNING OUTCOME

On the successful completion of the course, the learner will be able to:

- Focus on moving beyond computer literacy
- Develop Interpretation and adaptability skills
- Construct adequate and appropriate
- Simplify record keeping and information management in education administration
- Shift From an "Industrial Society" to a post industrial Information Society"
- adapt decentralized structures and processes
- Enhance Digital Public Education
- Learn experiences and new set of skills will be cultivated
- utilize massive open online courses (mooc)
- Facilitate training of facilitator
- obtain cost reduction and time saving associated with information delivery and automating regular day to day tasks
